- (1) There are lakes on the banks of the Lake.
- (2) On the Banff-Windermere road.

Nestling in the heart of a two-hundred-mile-long valley between the Canadian Rockies and the Selkirk Mountains, Lake Windermere has attracted to its very beautiful shores a considerable settlement of ranchers, who by means of an excellent irrigation system, grow alfalfa, potatoes, smaller fruits and certain varieties of apple and cherry trees. There are several successful dairy farms, and the Valley is particularly well adapted for horse breeding. The wonderful scenery of the creeks and canyons leading up to the Great Selkirk Icefield is easily accessible from this Valley, and the number of tourists and Alpine climbers who make this their summer headquarters is steadily increasing. Already there is a small tourist hotel, and there is talk of a Ten City for the forthcoming summer, on the lines of the Tent Cities at Coronado Beach and other popular resorts in the United States. The temperature of the Lake, which is ten miles long, is uniform throughout the year, and there are excellent beaches on the lake's shores. The Valley is served by a fine railway line of the C. P. R., and the B.C. Government, the Banff-Windermere Road now under construction will form part of the National Park System, and will be known as the "Banff-Windermere Road". Under an agreement between the Federal Government and the B.C. Government, the Banff-Windermere Road will be known as the "Banff-Windermere Road". The road will be known as the "Banff-Windermere Road". The road will be known as the "Banff-Windermere Road".

NO LIBERAL TO OPPOSE THE PREMIER

H. P. Moore Announces at
Action Meeting They Will
Not Fight Drury.

WEAKNESS OF U.F.O.

Says Leader, is That They
Are Not Playing
Politics.

Hamilton, Feb. 1.—Mr. Drury is not the only one opposed in Hamilton to the extreme cold, the meeting of the Liberal executive called to consider the situation did not take place yesterday. President W. J. Clements says he does not expect to see a Liberal or any other candidate brought out. The election is too near.

Astor, Feb. 1.—"We have not played politics as well as we might," says Drury, "but we have gone ahead to give good government." He said Premier Drury, speaking last night, in the light of the administrative record of his Government, had done as much for the province as any other Government in the history of the province. He said that the Liberal Government had done as much for the province as any other Government in the history of the province. He said that the Liberal Government had done as much for the province as any other Government in the history of the province.

"I am happy to announce that at present it appears that Mr. Drury will be elected in the good old Ontario election," he said. "I am happy to announce that at present it appears that Mr. Drury will be elected in the good old Ontario election," he said. "I am happy to announce that at present it appears that Mr. Drury will be elected in the good old Ontario election," he said.

"That is our weakness, perhaps," he remarked. "We have not been playing politics enough. We have been doing our business." Good government was more a matter of administration than legislation, he declared.

"The success of our democracy depends upon popular education," he said. In discussing the Government policy, education has been a first consideration of the new Government. In the educational system the public school was most important. It should not be a stepping-stone to the high school. The teaching there should result in giving the child something that would remain throughout life and stimulate his mind to go on learning in practical life when the real education was received. It was the common view of teachers, inspectors and educational experts that the existing system had regulated the life out of the school teachers. The

WHEAT AND FLOUR BOTH ARE ADVANCED IN PRICE

Cost of Wheat to Mills is Increased by
25 Cents Per Bushel

Wholesale Flour Price Raised From \$10.10 to
\$11.25 Per Barrel by Wheat Board

Winnipeg, Feb. 1.—Effective from midnight on Saturday last and until further notice, the Canadian Wheat Board has ordered changes in the price of wheat and flour. The price of wheat has been advanced 25 cents per bushel, and the price of flour has been advanced 12 1/2 cents per barrel.

British Columbia, Ontario and Quebec wheat to mills in Canada is now raised by 25 cents per bushel, and the board also increases the maximum wholesale price of Government standard winter wheat flour from \$10.10 to \$11.25 per barrel.

The Government had done other things which would have hurt the farmer, but it had a forestry policy intended to retain for Ontario the great forest wealth, which was being rapidly depleted by a neglectful policy in the past. It had, however, maintained a new road policy which aimed to serve all the people, not to provide a highway that would be used by one class only. Roads should give service first and pleasure second.

"I do not know whether I am to be opposed," he said in conclusion. "Frankly, I hope not." A light would prevent him from preparing statements for the opening of the Legislature, but would result only in obstructing the Government, and the defeat of the Government would be no advantage for the old-time parties could hardly carry on.

"I hope that we shall get the chance to show what we can do, and to show that we are not afraid to do something for the Province of Ontario," he concluded. The retiring members were Mr. J. P. Ford, the retiring member for Mr. A. G. Farrow, county U. F. O. director, and Mr. B. H. Ford, of Orlia.

Appendicitis Prevented

Doctors say if people kept their bowels in proper order there would be no such disease as appendicitis. It is the only way to keep healthy, and it is therefore preventable. If you have constipation, bad breath or headache you need medicine right away.

MACHINE WON'T RUN IN KENORA

And Doubts Story That Heenan
is Mourning.

Raney Answers a "Paragonage" Ungrace.

Toronto Globe. If the U. F. O. Committee which has the matter in charge should find it necessary to open a public subscription to provide a safe for Hon. W. E. Raney, it need not fear opposition from Liberal, C. N. A. or Conservative members of the House. The Liberal member for the riding, who was defeated there in the general election, Mr. J. H. Caruthers, in reference to Hon. Mr. Raney running there, said Mr. Heenan would be as follows:

In reply to wire, cannot confirm the rumor, which I very much distrust, as Heenan is an out and out laborer, and naturally very adverse in giving seat to U. F. O. man. The whole thing seems highly improbable, and would be tantamount to Labor getting out. In any case I would not run in Kenora if offered me by acclamation, as having been so recently told that my services were not required I would not think of attempting to force myself on people. Hope some day to run in Toronto, where I could have been elected last October had I favored the advice of myself and others.

Former Resident Dead at Age of 92.
Dundas, Feb. 2.—At the Men's League, yesterday, Town Engineer Murdoch gave an address on the local sewer system explaining all its various operations.

DUNDAS NEWS

Water Mason, wife and child arrived yesterday, from England, and are with his father George Mason. He is the last of the local soldiers to return home, having enlisted in Rattackman, at the outbreak of the war with the P.C.I.C., and was wounded. Later he has been on military service in England.

Home Davidson has arrived in town and has taken up his residence here. Chris. Davidson, a former Dundas resident, died in Cornwall, on Friday, aged 92. The funeral will take place today in the Grave Cemetery, here.

The monthly session of the council will be held to-night. A fire in the garage of Thos. E. Fisher, damaged the car considerably. The fire was turned in by the services of the brigade, were not noticed.

We are never too old to learn. Life is too short to waste any of it in loquacity.

Serving the New Canadians

DURING the past twenty years Canada received three million new settlers of whom about one million were of foreign speech. The war interrupted immigration, but soon the march westward will begin again.

Mutual Requirements
What do we expect of these new citizens? Respect for Law and order, a measure of diligence, that they may become a charge upon the community, and a willingness to adjust themselves to a new environment.

What do they expect of us, the native-born? Justice, sympathy and kindness. They are entitled also to the stimulating influence of great Canadian ideals. They have a right to the Gospel of Christ, not only explained in theory, but worked out in practice by Christian men and women.

The Church Hampered
The Church has not been neglectful of these new Canadians, whether settled in the crowded cities, or on the Western plains. But the effort to reach them with the ministry of Religion has been hampered by lack of Missionaries to overcome the work, and by inadequate financial means.

A Case of Misunderstanding
Many Church Members do not realize the magnitude of the task. Lacking complete understanding of the situation, they have not sought out spiritual leaders for these new Canadians, and have been content with former standards of giving. Even with a slowing-down of immigration, the needs have not been met. What will happen when the floodgates roll in again?

Look! A Study in Contrasts
In the year 1880, the United States had a population of 5,300,000. Despite the many recent years, 100,000 immigrants arrived in America each year.

In 1901, Canada had a population of 5,200,000. During the next fifteen years, the immigration to this Dominion reached a total of 250,000. In 1901, Canada had a population of 5,200,000. During the next fifteen years, the immigration to this Dominion reached a total of 250,000.

Moulding the National Spirit
The great majority of immigrants now settled in the Dominion are men of good-will, with an aspiration for useful citizenship. They are helping to do the day's work of this land for the advantage of us all. The future public opinion of Canada, the future moral stability of the nation depends upon the will and power of the Church to fulfill its trust to these New Canadians.

Motives for Activity
You are a Canadian, proud of your country, and deeply concerned for its future. You are a Christian, believing that the Gospel is the only dependable and inviolable civilizing agency. You are urged to pray, to serve and to give, that the Home Missions of your Church may be properly sustained in this day of national emergency.

CERTAIN MARS IS INHABITED

German Astronomer Has
No Doubts Whatever.

Thinks Light Rays Made of
Communication.

London, Feb. 1. A dispatch to the Daily Mail from Berlin dated Thursday says: "There's every reason to believe that Mars and other planets are inhabited," said Prof. E. E. Schmidt, the celebrated German astronomer, speaking of the numerous wireless signals which Marconi declared had been received from an unknown source simultaneously in London and New York. "Why should the earth be the only planet supporting human life?" he asked. "But if intelligent creatures do exist, as we may assume they do, where in the universe, I should not expect them to try to communicate with the earth by wireless. Light rays would be the first method attempted, but, of course, all depends on the degree of development and in the present state of our own technical equipment it is impossible to hope to satisfy ourselves of their existence."

Personally, I should be inclined to believe that these wireless interruptions are due either to atmospheric disturbance, or secret experiments being carried on by some other system of wireless telegraphy."
